

OLUWASEYI ABAYOMI EMMANUEL

Electrical & Solar Installation Technician | Technical Support Professional

Ibadan, Oyo State, Nigeria • +234 706 484 0014 • oluwaseyifunmioluwadami@email.com

PROFESSIONAL SUMMARY

Motivated and detail-oriented technician with hands-on field experience in electrical installation, solar PV systems, and industrial machine maintenance, gained across multiple roles in Ogun and Lagos States. Brings a strong technical mindset, methodical troubleshooting ability, and proven experience in customer-facing technical support. Comfortable reading technical documentation, following safety procedures, and working through installations, diagnostics, and maintenance tasks independently or as part of a team. Eager to contribute to clean energy and electrical systems projects while continuing to build field-specific certifications.

TECHNICAL SKILLS

Electrical & Solar	Electrical wiring and installation, circuit understanding, solar PV system components (panels, inverters, batteries, charge controllers), battery assembly and configuration, installation safety practices, DC/AC fundamentals, fault diagnosis and repair
Industrial Maintenance	Routine maintenance on industrial machines, mechanical and electrical fault diagnosis, equipment servicing to reduce downtime, support for production operations
Technical Support	Customer troubleshooting, issue investigation, complaint resolution, documentation, clear technical communication
Tools & Software	Multimeter (basic use), hand and power tools, Git/GitHub, VS Code, Microsoft Office
Soft Skills	Detail-oriented, patient and methodical, calm under pressure, reliable, strong written/verbal communication, teamwork

PROFESSIONAL EXPERIENCE

Electrical Technician / Solar Installer — Adesina Electrical Contractor — Ogun State · 2019 – 2022

- Installed and maintained electrical systems.
- Set up solar energy systems for residential clients.
- Diagnosed and repaired electrical faults.
- Ensured safety compliance in all installations.

Machine Maintenance Technician — Sweet Nutrition Limited (Mr. Chef) — Sango Ota, Ogun State · 3 Months

- Performed routine maintenance on industrial machines.
- Assisted in diagnosing and fixing mechanical and electrical faults.
- Ensured machines operated efficiently to reduce downtime.
- Supported production operations through equipment maintenance.

Battery Assembly Assistant (Solar/Electrical) — Mutaab Technical Services — Apapa, Lagos State · 2–3 Months

- Assisted in assembling and coupling electrical and solar batteries.
- Worked on battery configuration and connection systems.
- Supported production of solar battery units.
- Ensured proper handling and safety during assembly.

Customer Service Representative — Class 54 Educational Practice App (Remote) · 2024 – 2025

- Handled customer inquiries and support.
- Resolved complaints and improved satisfaction.
- Maintained customer records and logs.
- Improved response efficiency.

Web Development (Self-Learning) · 2026 – Present

- Learning HTML5 and CSS3.
- Built 2 personal websites.
- Practicing responsive web design.
- Preparing for JavaScript development.

PROJECTS

- Personal Portfolio Website — HTML5 & CSS3.
- Responsive Web Design Project — Mobile-friendly layouts.
- Solar Installation System — Residential setup.
- Electrical Wiring Project — Safe installations.
- Fault Diagnosis Project — Electrical troubleshooting.

EDUCATION & TRAINING

BSc, Computer Science — University of the People (Online) · *In Progress*

- Relevant coursework: Programming Fundamentals, Data Structures, Databases, Web Programming.

Continuous Learning

Self-directed study in electrical systems, solar PV fundamentals, and installation safety through online resources and technical documentation. Open to formal apprenticeships and certification programs in electrical/solar installation.

LANGUAGES

English (Fluent) · Yoruba (Native)
